### Anthracite Region

#### Statistical Reports:

- Production, Employees and Fatalities 1870 - 1984
- Summary of Anthracite Mines, Production and Fatalities by District/County
- Production of Coal Shipped to Market, Employees, Average Days
- Operators Producing 25,000 or More Tons
- Accidents In Which Five or More Persons Were Killed - 1847 -- 1984
- Study of Anthracite by County
- Deep Mine District--County Cross Reference
- Surface County Code Cross Reference
- Production Table: Production, etc., of Anthracite Operators by District/County
- Delinquent 1983 Production, etc., of Anthracite Surface Operators
- Breakers, Washeries and Preparation Plants
- Anthracite Operators Mailing List

### Bituminous Coal Region

#### Statistical Reports:

- Production, Employees and Fatalities 1877 -- 1984
- Summary of Bituminous Coal Mines by District/County
- Operators Producing Over 200,000 Tons of Deep Mined Coal During 1984
- Operators Producing Over 200,000 Tons of Strip, Auger and Refuse Coal During 1984
- Bituminous Fatal Accident Victims - 1984
- Study of Bituminous Coal by County
- Deep Mine District--County Cross Reference
- Surface County Code Cross Reference
- Production Table: Production, etc., of Bituminous Coal Operators by District/County
- Geographical Table: Geographical Locations and Explosives Used of Bituminous Coal Mines by District/County
- Cleaning Plants and Tipples
- Bituminous Coal Operators Mailing List
- Pit and Quarries - Non-Coal
- Directory
On December 14, 1981, Governor Dick Thornburgh appointed Nicholas DeBenedictis, of Havertown (Delaware County), to the Cabinet level post of executive director of the Economic Development Committee of the Cabinet.

The Economic Development Committee was established by the Governor in 1979 to coordinate the activities of all state departments with responsibilities for economic development. The committee concentrates on specific economic opportunities and problems to meet the needs of business and industries so that they will remain, expand or locate in Pennsylvania.

The Economic Development Committee of the Cabinet consists of the Governor, who serves as chairman, the Lieutenant Governor who serves as alternate chairman, and the secretaries of Agriculture, Commerce, Community Affairs, Environmental Resources, Labor and Industry, Revenue, Transportation and Legislative Affairs.

DeBenedictis, 36, served until recently as an Assistant Regional Administrator of the U.S. Environmental Protection Agency (EPA), and formerly was press secretary for the Commonwealth's Office of Budget and Administration and a special assistant to Budget and Administration Secretary Robert C. Wilburn.

DeBenedictis has managed federal air, water and hazardous waste pollution control programs for the states of Pennsylvania, West Virginia, Virginia, Delaware, Maryland and the District of Columbia.

As an EPA congressional and intergovernmental relations officer, DeBenedictis worked with state, federal, and local elected officials from 1976 to 1979. He also served the Reagan administration in Washington as EPA Administrator Ann Gorsuch's press secretary during the transition period in 1981.

As part of a special federal executive interchange program, he served in 1980 as press secretary for the Pennsylvania Office of Budget and Administration, where he worked with the governor and cabinet officers in state budget matters.

A 1969 graduate of Drexel University, DeBenedictis holds a bachelor's degree in business administration and a masters degree in environmental engineering and science. He also served in the Army Corps of Engineers (1970-73), and is now a captain in the Army Reserves.

He has received numerous awards for public service, including the International Year of the Child Award from the U.S. Department of Health, Education and Welfare (1979), the EPA Silver Medal Award for Superior Service (1979), the EPA Quality Performance Award (1976) and the EPA Bronze Medal for Commendable Service (1974).

He and his wife, Eileen, have two children.
Dear Secretary DeBenedictis:

As required by the Anthracite and Bituminous Coal Mine Acts, I herein submit a brief report on the activities of the Commonwealth's underground mining operations for 1984.

This edition represents the 115 consecutive annual report concerning the Anthracite and Bituminous coal mining activities within the Commonwealth.

Anthracite deep mine production increased in the year by about 150,000 tons, and there was an increase in employment over the previous year of 123 jobs. The industry accounted for slightly over one million tons produced, employed about one thousand deep miners in 128 mines. There were no fatal accidents and 121 non-fatal.

In the Bituminous coal region, deep mine production increased about one-quarter million tons over 1983 with 300 fewer miners employed, totaling 14,998 jobs. The number of deep mines operating was 121, eight fewer than the previous year. There were seven fatal accidents compared to nine in 1983. There was, however, an increase of 292 non-fatal accidents.

The Bureau continues to train approximately 15,000 miners per year in mine safety techniques and prides itself on maintaining five first-rate mine rescue stations that are strategically located throughout the coal fields.

Ms. Patsie Nichols has single-handedly complied this report and should be complimented for what I believe is an exceptional job well done.

Please accept my sincere appreciation for the support you have given the Commonwealth's deep mine safety program.

Respectfully yours,

W. J. Vicinelly
Director
Bureau of Deep Mine Safety
